

RISING TIDE GLOBAL PROUDLY PRESENTS

HERCULES MULLIGAN

Named for the until recently little-known tailor, spy, and hero of the American Revolution who changed history and secured freedom for all, **Hercules Mulligan** is based on unique recipes inspired from the period.

Launched in late 2019, Hercules Mulligan's initial recipe is simple in its nature - rum, rye whiskey, fresh ginger, and bitters - yet utterly complex and delightful; a unique composition which tickles the nose and loosens the lips.

Recently introduced Eyr & Rye is equally tantalizing with a unique combination of Irish Whiskey, rye whiskey, and maraschino cherry bitters.

Quality is etched in Hercules Mulligan's DNA, as it uses real, honest, actual ingredients - no fake "natural" flavors. It's a true craft cocktail in a bottle - picking up awards and rave reviews for how it delivers quality with ease. The best way to savor its flavors is sipping it on the rocks. Simplicity for the win.

THE BLENDMASTER

Joe Nelson has been the spirit behind Five & 20 Spirits since 2008. He approaches distilling with a blend of scientific experimentation and deep knowledge of our nation's whiskey production history, with a die-hard dedication to using local agricultural products. Joe demonstrates his mastery of blending techniques and inspired secondary cask finishes in every batch and barrel, both for our own line of products and our portfolio of partner products, including Jägermeister, Hamilton Rums, and Sazerac's Bittermen's collection.
