

RISE TIDE GLOBAL PROUDLY PRESENTS

REVIVALIST GARDEN GIN

Join us in celebrating our passion for plants with Revivalist Garden Gin, a sustainably produced, all natural, next gen craft spirit. Botanically forward and lighter on the juniper than a London Dry, it's made with a curated selection of ethnobotanicals that excite the senses and bring new life to your favorite cocktails.

Ashwagandha brings herbaceous notes that mingle with a hint of lemon from verbena. Rose hips and rose petals add floral notes with undertones of stone fruit sweetness from plum, and nuttiness from hemp seed. Woody, savory, and fruity notes linger on the palate for a nearly endless finish. Appealing to both traditional gin aficionados and new world spirits explorers, it mixes beautifully in your favorite cocktail and makes a brilliant Gin & Tonic.

THE DISTILLER

Revivalist Garden Gin was designed by **Brendan Bartley**, the world renowned Head Bartender and Beverage Director of Bathtub Gin in NYC and LA. Brendan selected each botanical, to impart a distinctive note that together, create an exceptionally well-rounded palate compared with other gins.
